

GENIALG

JOINT FINAL CONFERENCE

Seaweed for the Future: Scaling-up the European Sector

Due to COVID-19 restrictions, this conference has been postponed

New dates will be available soon

Two major algae projects, GENIALG and IDEALG, join forces to present the latest innovative seaweed research and its application to seaweed cultivation and biorefinery. Hear all the latest results in seaweed genetics, genomics, biology, physiology, chemistry and more!

All seaweed stakeholders are invited to join us to hear everything you need to know about:

- ✓ Diversifying and expanding the exploitation of seaweed into high value compounds for human and animal food, plant care, biomaterials, cosmetics and green chemistry
- ✓ High-yielding seaweed cultivation systems
- ✓ Production and sustainable exploitation of brown alga *Saccharina latissima* (sugar kelp) and green alga *Ulva* spp. (sea lettuce)
- ✓ Economic feasibility and environmental sustainability of cultivating and refining seaweed biomass
- ✓ Impact of seaweed exploitation on the environment, economy and society

Who should attend? Scientific community, industry stakeholders, policymakers and anyone with an interest in seaweed research. Contributions from any area of seaweed development are expected and encouraged.

What to expect: A four-day, open-door, joint final international conference organised by the **IDEALG** and **GENIALG** projects. **IDEALG** and **GENIALG** have carried out extensive research on all aspects of seaweed to support the development of the seaweed sector, aiming for a sustainable utilisation and processing of macroalgae into high value compounds.

Day One: **GENIALG** Biorefinery Demonstration Day, presenting the value chain of *Ulva* spp. and *Saccharina latissima*.

Days Two to Four: Scientific conference presenting the major outputs from **GENIALG** and **IDEALG**.

- Round Table Discussions
- Poster Sessions
- Scientific Talks
- PhD Sessions
- Seaweed Cookery Demonstration
- Keynote Lectures

Guidelines for registration and the submission of abstracts will be available soon
